		11 1/2		
		12		DRAFO SPORT PF 5L
		12 1/2		
		13		

DETERMINING SIZE

When fit correctly, the DRAFO Sport will provide unparalleled support, protection and comfort.

Find your correct size by first measuring your instep circumference. Match your shoe size and instep circumference to the size chart. If you fall between sizes always go to the smaller size.

Measure instep circumference

Example: with ankle at 90°

Shoe size = Men's 9

Instep = 12"

Choose brace size 3

Similar to a new pair of shoes, a correctly fit sports brace may seem slightly uncomfortable or "different" at first.
